ABOUT THE CONFERENCE

The International Conference on Computational and Cognitive Systems Science (ICCCSS 2026) provides a global platform for researchers, academicians, industry professionals, and students to present and exchange innovative ideas in Computational and Cognitive Systems Science. The conference covers emerging areas including Artificial Intelligence, Machine Learning, Data Science, Cognitive Computing, Human-Computer Interaction, Intelligent Systems. Through keynote talks, technical sessions, and collaborative discussions, ICCSS 2026 promotes research excellence, interdisciplinary collaboration, and the advancement of next-generation computing technologies.

ABOUT THE COLLEGE

Shri Shivaji Education Society, Amravati's College of Engineering established in 1983. It is one of the premier premier multidisciplinary technical institutions in Central India. The institute is affiliated with Sant Gadge Baba Baba recognized by Government of India and Maharashtra, Architecture is approved by Council of Architecture (COA), New Delhi.

On behalf of the organizing committee, it is our great pleasure to invite academicians, researchers, scientists, industry professionals, research scholars, and students to participate in the 2nd International Conference on Computational and Cognitive Systems Science (ICCCSS 2026). The conference provides a vibrant platform to present cutting-edge research, exchange innovative ideas, explore emerging technologies, and foster meaningful interdisciplinary collaborations in the fields of computational and cognitive systems science. We warmly welcome participants from academia and industry to share their knowledge, research outcomes, and perspectives and contribute to advancing next-generation intelligent and computational technologies.

Shri Shivaji Education Society, Amravati

Shri Shivaji Education Society, Amravati, is one of the prominent educational organizations in Central India, with a strong presence across the districts of Vidarbha, Maharashtra. Established with a vision of promoting accessible and quality education, the Society has played a significant role in the development of education, research, and professional learning in the region.

The Society was founded under the leadership of its visionary founder President, Late Dr. Panjabrao alias Bhausaheb Deshmukh, who dedicated his life to establishing and strengthening educational institutions. Over the decades, the Society has expanded its educational activities across diverse disciplines including engineering, technology, agriculture, science, arts, education, medicine, law, information technology, and other professional fields.

With its extensive academic network and commitment to educational excellence, the Society provides a strong foundation for research, innovation, interdisciplinary collaboration, and knowledge exchange—values that are central to ICCSS 2026.

College of Engineering & Technology, Akola

Shri Shivaji Education Society, Amravati's College of Engineering & Technology, Akola (COETA), established in 1983, is a premier multidisciplinary technical institution in Central India. The institute is affiliated with Sant Gadge Baba Amravati University, Amravati, and recognized/approved by the Government of Maharashtra, AICTE, New Delhi, and the Council of Architecture.

The institute offers academic programmes across Undergraduate, Postgraduate, Doctoral, Management, and Architecture education, including Engineering, Architecture, MBA, and Ph.D. programmes, along with a Diploma in Architecture. The institution places strong emphasis on quality education, applied research, innovation, entrepreneurship, and meaningful industry interaction.

Department of Computer Science & Engineering

The Department of Computer Science & Engineering is actively engaged in teaching, research, innovation, and technology development in emerging areas of computing. The department provides an ideal academic environment for interdisciplinary research involving Artificial Intelligence, Machine Learning, Data Science, Cognitive Computing, Intelligent Systems, Cybersecurity, Cloud Computing, Internet of Things, Software Engineering, and other emerging technologies.
