18.4. Awards. Any award rendered in such arbitration proceedings shall be payable in U.S. dollars, and judgment upon such award may be entered in any court of competent jurisdiction, or application may be made to any such court for a judicial acceptance of the award and an order of enforcement as the case may be, and may be payable to the winning party, at its option, in cash, by way of an offset against the winning party's accrued but unpaid royalties, fees, or dividend under any agreement with the losing party, or by any combination of the above.

Each party agrees not to use such confidential information for any purpose not reasonably required by this Agreement. The requirements of this Section are perpetual and will survive the termination or expiration of this Agreement for any reason.

Notwithstanding anything herein, either party may disclose confidential information to the extent required or compelled by a court order, or local, state or federal law, or regulation,

provided that the disclosing party, using best efforts, gives the other party written notice of the proposed disclosure with sufficient time to seek relief and that such disclosure, if made, is made in a fashion to maximize the protection of the confidential information from further disclosure.

Company recognizes and acknowledges that any use or disclosure of any confidential information by Company in a manner inconsistent with the provisions of this Agreement may cause Certiport irreparable damage for which remedies other than injunctive relief may be inadequate, and Company agrees that in any request by Certiport to a court of competent jurisdiction for injunctive or other equitable relief seeking to restrain such use or disclosure, Company will not maintain that such remedy is not appropriate under the circumstances. Do you feel the Soft Skill and Personality Development training has worked for you and him?

Yes, because it helped us to improve our Self Confidence. gave us the basic knowledge about soft skill.

Are you satisfied by training? (Yes/NO)

Yes; but it should contain more practical practices than just theory part.

Do you feel such training has to be arranged frequently?

Yes; because Students get aware about such frequent practices which will be helpful in our future.

Are you satisfied by the faculty of training?

Yes, they were kind and friendly. helped us and co-operated with our difficulties.

Write your Futuristic liking area of technology.

3D holographic projection controlled by hand gestures and analyse it as per the command given.

Write your view about Soft Skill and Personality Development Training Program.

It makes us aware about such campus placement programmes and how to get prepared for it.

Write your suggestions if any on the Program

It is definitely helpful for us. But in my opinion it should not be executed like a lesson of teaching it should be more practical and convey in such a way like we naturally learn things.

Any other remark

Should make it more entertaining. So, students should not feel bored or attend the program just because they have to. They should attend it by their own interest and participate by their own.

Institute has intend to make students employable for which the college has taken efforts to enhance the job prospective of engineering students by imparting various skills based training programs. Since last five years College is regularly conducting face to face CRTP program for the final year students in the campus, so as to make them ready for the jobs. For the session 2020-21 because of Covid- 19 situation, it is proposed to provide the online Campus Recruitment Training Program (CRTP) to the Final year students for 40 hours, the conduction of Training will be only two hours per day to avoid the academic loss of the students. The college has received the proposal from the renowned Training Agency NIIT Limited, a global leader in skill and talent development, offers multi-disciplinary learning management and training delivery solutions to corporation institution and individuals in over 40 countries. NIIT Nagpur Dharampeth Centre has been providing state of the art training and placement to the youth of Central India since 1990.

The charges quoted by agency after negotiation for the said training is Rs. 1350/- per student, the module offered by NIIT to us, which was originally costing Rs.4500/- and it has been specially customized and reduced cost for our College for the batch size of 200 students, i.e. the total amount is of Rs. 270,000/- inclusive of all taxes. We plan to take part payment of Rs. 300/- to Rs.500/- as possible from students, which may reduce the total amount to be paid from College by Rs.60,000/- to Rs.100,000/-. The Total students for CRTP may also be considered to actual count which may be between 150 to 200 students. It has been unanimously decided in the meeting of HOD's that institute should offer above Training to the final year students.
