- **Tree Plantation and water conserviour Activity Conducted under NNS**

College students and staff with the active participation successfully completed the event of Tree Plantation under the National Service Scheme. Trees are the foremost source for producing the oxygen in environment, they helps to reduce the level of CO₂ . As we all know that the whole world is facing the problem of global warming and to recover from such problem planting the trees is become one of the most important aspects today. With the trees **Water conservation** should also be worshipped. Students addressed the village people during your n.s.s. camp by the activity "Pani Adva Pani Jirva" on conservation of water.
