Key Indicator - 7.3 Institutional Distinctiveness

7.3.1 Institutional Distinctiveness:

In full obeisance to the vision and foresight of Dr. Panjabrao alias Bhausaheb Deshmukh, our institute will strive tirelessly to educate and qualify the students from all the strata of society, who are future engineers and technocrats, to take up the challenges of the modern era so that they are nationally and globally accepted in the application of their skills and knowledge to the benefit and development of the society.

- The majority of students are belonging to farming families taking education in our institute. Our Institute has maintained such an environment that the students feel comfortable and they feel proud that they are learning in the institute run by Shri. Shivaji Education Society Amravati (SSES Amravati) which is having very high moral values.
- Our Institute maintains an environment such that the students from higher social/economic classes and backward classes get equal opportunities to grow. This institute is a good example of harmony between the students of various classes.
 - Our parent Society (SSES Amravati) provides a special scholarship of **Rs. 25,000/-** per student per year to the economically weaker student for four years i.e. till the completion of his course.
- We also ensure that the student gets placement and entrepreneurship after completion of their degree so that their family should get financial support. This helps the family to uplift their economic status and help them to give quality education to their other children.
- Institute gives opportunities to every student as per his intellectual requirement. The students are given exposure to the outside world by arranging industrial visits and site visits. They are also sent for industrial training.
- The training courses and soft skill programs are arranged to make the students employable. Hostel facility and bus facility is provided to the student at a very reasonable rate.
- Activities like Sports, cultural activities, various technical clubs, and National social schemes are carried out throughout the year for the overall development of students.

CRITERIA 7- INSTITUTIONAL VALUES AND BEST PRACTICES / 7.3.1

- The NSS activities develop social awareness in the students. This makes the student sensible. All the efforts are taken by the institute to prepare the students to take up the challenges of the rapidly changing world.
- Competitive edge is provided to the students by arranging Expert talks, Workshops, Conferences, Gate forums, etc.

The Vision of the Institution is to mould and empower students in the pursuit of knowledge, values, and social responsibility and help them achieve excellence in various fields, thereby also preparing them to face global challenges. The Institution has never faltered in Inspiring the students the pursuit of knowledge, values, and social responsibility by allowing the students to organize events to develop their skills, multidisciplinary project development, Entrepreneurship development, and Ethical and Human value development.

(a) Skill Development: The Institution arranges skill enhancement programs to develop their skills for example – Personality enrichment, Employability skill development, Entrepreneurial development, Language skill development, etc.,

(b) Projects: Students at the UG and PG degree courses take up Internships in industries and pursue their projects which gives them hands-on training in their field of interest.

(c) Placement/Entrepreneur Development: the primary focus of the institute is on the campus placement of the students ED Cell crucially works on generating the excitement in the young brains to produce innovation and thus laying the stones for entrepreneurship. Budding entrepreneurs are motivated for start-ups and thus are self-sufficient and independent financially and can either support their education or family.

(d) Ethical and Human Value Development: Ethical values are the foremost interest of the institution, Students are motivated to visit orphanages, old age homes, and Cancer institutes and serve the local adopted school or village through NSS. Students have never been insensitive to social crises during natural devastations. Various social activities were conducted by the institute:

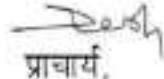

CRITERIA 7- INSTITUTIONAL VALUES AND BEST PRACTICES / 7.3.1

Proposal for Admissions against CAP in 1st year at institute level for session 2019-20

Item No. 10 (a)

82

At the present admissions in 1st year in Engineering are 157 as against 300, whereas in Architecture 17 as against 40 seats are filled. The situation of admissions is worst in the entire state and every year admissions are reduced due to student's interest diverted to pharmacy & agriculture courses. If we admit students at institute level students will not get scholarship benefit & it is very difficult for the students to pay 100% fees due to most of the students having poor financial condition. In view of this it is proposed to give admission to the students against CAP in the first year and those students who are eligible for scholarship like OBC, EBC, SC/ST etc. as per Govt. rules will be given concession / scholarship fixed amount of Rs.22,500/- every year during their tenure of 4 years. Last year we have admitted 28 students by giving such concession. Taking advantage of this opportunity given by our management we could manage to add 15 admissions giving concession as mentioned above. List of students is enclosed for approval.
